

G&D Integrated™

Smart. Efficient. Logistics.

Transportation Solutions

G&D Integrated is your trusted partner for smart, efficient logistics. We bring over 100 years of experience advancing innovative global supply chain solutions.

Trust G&D Integrated to help you expertly manage your entire supply chain and simplify your processes—moving and managing your goods to improve productivity and provide real-time visibility into the flow of your inventory.

G&D Integrated has a rich history that dates back to the early 1880s, when freight was delivered with horse-drawn wagons. Today, G&D Integrated provides domestic transportation, contract logistics, and supply chain services to a wide variety of industries with over 1,000 employees at over 20 facilities across North America.

Today's global supply chains are complex. The ability to be flexible is the key to your competitive edge. Based on your individual business needs, G&D Integrated works collaboratively with your team to optimize supply chain solutions. We customize those solutions from a broad portfolio of logistics services that encompass strategy through execution.

Getting You There

Experts in identifying and developing custom, dedicated transportation services to optimize the flow of goods in global supply chains, G&D Integrated provides a broad array of solutions. We are an asset-based provider so when you work with G&D Integrated for your transportation needs, it means increased reliability, control and peace of mind. We have the ability to leverage our truck fleet with the extended reach and capacity of our full brokerage capabilities including intermodal drayage.

Truckload

Freight Brokerage

Intermodal Drayage

Truckload

G&D's fleet program provides high quality transportation management and oversight, enabling you to allocate your staff and resources on other business operations. As an asset-based company, we have our own extensive fleet of power units, chassis, trailers, flatbeds, curtain sides and customized equipment. We maintain a fleet of over 450 trucks and 2,600 trailers and process approximately 10,000 material moves per week throughout our network. Our experienced pool of drivers ensures efficient and professional service for a wide range of transportation needs.

Consider G&D Integrated Truckload services if you need:

Committed capacity

Industry leading service levels

Greater reliability and efficiency

A provider to manage tight delivery windows to meet critical manufacturing requirements

A flexible transportation partner

Experience the benefits of our Truckload services:

EXPERTISE

G&D Integrated has over 100 years experience serving a variety of industries including Fortune 50 companies. G&D was recently named a "Top 25 Dedicated Contract Carrier" by *Transport Topics*.¹

Dependability and increased reliability with our asset-based fleet means we will show up on time and help clients get the right product to the right place at the right time.

SUSTAINABILITY

We are an industry leader in renewable energy, through our use of biodiesel, which helps the environment with lower emissions and improved fuel-efficiency and ultimately translates into cost savings for our clients. We are also recognized as a SmartWay® Transport Partner.

FLEET MANAGEMENT

We maintain a modern fleet with a coordinated approach to ongoing fleet replenishment assuring increased safety, security and efficiency for your loads.

We internally manage all equipment procurement, fuel and expertly maintain our own fleet to ensure greater control and safety.

REGULATORY

We handle all regulatory compliances (CSA, HOS, DOT, EPA)

SAFETY

We consistently maintain industry leading CSA safety scores ranking in the top 2% of our peer group for safe driving.²

We provide comprehensive and ongoing driver training and safety management.

Freight Brokerage

When you use G&D's freight brokerage service, we serve as a liaison between you and an authorized, insurance covered carrier. We work to identify your needs and then coordinate with our network of approved carriers to satisfy your transportation requirements on-time and in a cost-effective manner. As an asset-based provider, we understand the importance of not only cost but reliability and service. We make every effort to contract with a more select group of carriers that have been vetted by our experienced operations team.

With expertise serving customers across the USA, G&D Integrated possesses extensive transportation industry knowledge and the technology to help you accomplish your objectives. Whether you need our freight brokerage solutions to move all of your freight, or for specific regions or loads, we get the job done on-time and for less.

Experience the benefits of our Freight Brokerage services:

Deal with one broker rather than representatives from several different companies

Personal attention from a dedicated account executive for the best customized solutions

Access to our client portal, which includes a variety of reports

Extensive carrier base for guaranteed capacity

Truckload services for all equipment types including: Dry Van, Flat Bed, Heavy Haul, Temperature Controlled

Consider G&D Integrated Freight Brokerage services if you:

Want a freight brokerage provider that is backed by an asset-based fleet

Want to work with a broker who actively seeks to understand your business and its requirements

Are shipping outside of an area where you do not have assets

Want low cost with reliability

Need a dependable broker with a reliable carrier base

Intermodal Drayage

G&D drayage services enable the quick pickup of container shipments and efficient movement of goods in and out of ports and rail yards.

We coordinate with container depots and steamship lines, manage drop pools, and foster great relationships with freight forwarders and customs brokers. We don't just execute moves that rail or sail but leverage our experience and liaise with all parties in the intermodal process, driving down costs through better utilization of equipment.

Experience the benefits of our Intermodal Drayage services:

Seamlessly interface with other segments of the intermodal logistics supply chain to reduce complexity, increase visibility and respond quickly to supply chain disruptions or schedule changes

Maximize efficiency in loading, unloading, sorting, and cargo transfers

Can be coupled with our consol/deconsol services to reduce transportation costs and improve flow of import/export materials

Consider G&D Integrated Intermodal Drayage services if you:

Are managing a global supply chain

Move and manage goods from a wide variety of hubs (ports, rail yards, distribution centers)

Experience delays at ports or rail yards

Don't have time to deal with complexity and nuance of intermodal shipments

Want a direct relationship with a drayage provider

Are considering changing from "door moves" to "merchant haulage"

Solutions That Deliver

TRANSPORTATION MANAGEMENT

G&D Integrated offers turnkey transportation management services. Our innovative solutions, the result of more than a century of best practices, lower transportation costs, improve customer service and reduce cycle times. G&D can place staff at your site or manage your business from our Operations Center to deliver the optimal cost and service combination.

Our transportation planning analysts utilize today's latest tools to identify routing synergies that create opportunities for lower cost and better service throughout our network. G&D's transportation management technology electronically monitors moves and makes shipment information available real-time through a web browser. Our skilled drivers are equipped with state-of-the-art equipment and technology to execute shipments flawlessly, meeting your most demanding logistics requirements.

JUST-IN-TIME EXPEDITED SERVICES

Leveraging our asset-based fleet, G&D Integrated can provide JIT delivery to your production floor. With more control of transportation options, we can work with our customers' specific production requirements to deliver the exact parts needed at the exact time and reduce time and handling within their facilities and on their assembly lines.

Experience the benefits of our JIT Expedited services:

Minimize costs in inventory and meet on-time delivery requirements

Reduce setup time and inventory

Improve the flow of materials, components and finished goods

Minimize waste by improving inefficiencies while remaining environmentally conscious

Consider G&D Integrated JIT Expedited services if you:

Have capacity constraints

Want to run a leaner inbound supply chain

Have customers driving JIT

Want to coordinate inventory shipments with transportation and warehousing activities

Want to keep inventory from breaking or expiring

Helping you with your transportation needs is just the beginning at G&D Integrated. We offer a range of additional services that deliver value, address real supply chain issues and optimize your transportation processes.

YARD MANAGEMENT

G&D Integrated leverages expert project management teams to support the implementation of on-site yard management solutions. Our team of knowledgeable, trained employees will collaborate with you to streamline on-site transportation and yard management operations.

With the use of real-time logistics management software, you will have automated yard activity data which is enterprise-wide and gives you instant visibility to where your on-site freight is at all times.

JOCKEY SERVICES

In conjunction with our yard management, G&D Integrated offers full on-site jockey programs including personnel, equipment and execution accuracy metrics.

CONTAINER/DEPOT MANAGEMENT

G&D Integrated can provide high-quality inspection, lift and storage of TOFC and COFC containers. We have both long-term and short-term secured storage options for shipping containers.

Experience the benefits of our Yard Management services:

Better visibility to shipments in the yard results in maximum efficiencies

Improve fleet utilization

Optimize the flow of inbound and outbound goods

Consider G&D Integrated Yard Management services if you:

Are currently running an inefficient yard

Want instant visibility to where your on-site freight and containers are at all times

Are looking to improve load aggregation to optimize truck utilization

Our Philosophy

Smart. Efficient. Logistics.

The mission of G&D Integrated is to partner with our customers to grow their business by creating industry leading logistics solutions. We do this by bringing continuous improvement and lean logistics processes to the table to fully optimize logistics networks. Each and every business has its own unique challenges, so we believe in a high level of engagement with our customers to develop a full understanding of their needs.

Part of our smart approach at G&D Integrated is the utilization of project management principles and techniques which are supported by cloud-based tools. This approach ensures a thorough and complete transition of your business with us.

At G&D Integrated, we take our commitment to the environment, renewable fuels, and corporate sustainability very seriously. Last year, G&D travelled more than 24-million miles fleet-wide. Over 66 percent of the fuel G&D uses in its Illinois fleets is biodiesel, in excess of 1.6 million gallons annually. This results in the reduction of 1,200 pounds of particulate matter per year.

We are dedicated to safety in every aspect of our operations and all employees are active participants in our safety culture which includes a driver safety council program and standardized monthly training sessions.

Industry Knowledge

When you work with G&D Integrated, you will benefit from extensive logistics experience in a variety of industries including heavy machinery, agriculture, electronics, automotive, retail, consumer goods and more.
